Visual and auditory alerts are generated within 1 minute of a service fault and email alerts generated within 2 minutes. Immediate action is undertaken to restore impaired services. All service affecting events are logged and analyzed by both SW Engineering and Cloud Operations resources to ensure that the event is fully understood, and steps are taken to mitigate future exposure to the event.
Encryption	Data will be encrypted while in motion and at rest.

CONTRACTOR'S DATA PRIVACY AND SECURITY PLAN

The Educational Agency (EA) is required to ensure that all contracts with a third-party contractor include a Data Security and Privacy Plan, pursuant to Education Law § 2-d and Section 121.6 of the Commissioner's Regulations. For every contract, the Contractor must complete the following or provide a plan that materially addresses its requirements, including alignment with the NIST Cybersecurity Framework, which is the standard for educational agency data privacy and security policies in New York state. **While this plan is not required to be posted to the EA's website, contractors should nevertheless ensure that they do not include information that could compromise the security of their data and data systems.**

1	Outline how you will implement applicable data security and privacy contract requirements over the life of the Contract.	All customer data is stored within the AWS US-East-1 region that provides maximum level of data protection and integrity.
2	Specify the administrative, operational and technical safeguards and practices that you have in place to protect PII.	Access to database customer database systems and databases is limited to cloud operations staff. Privileged remote access is done exclusively via an encrypted and secure channel.
3	Address the training received by your employees and any subcontractors engaged in the provision of services under the Contract on the federal and state laws that govern the confidentiality of PII.	To ensure the best security awareness and due diligence, Skillssoft performs background checks (subject to applicable local laws) with respect to pre-determined positions that require access to customer data.
4	Outline contracting processes that ensure that your employees and any subcontractors are bound by written agreement to the requirements of the Contract, at a minimum.	All Cloud Ops employees are required to review and sign a Security and Privacy Policy that details roles and responsibilities, escalation procedures and overall code of conduct within the Cloud Ops organization. All Cloud Ops employees are required to sign the policy annually, acknowledging their understanding and commitment to its guidelines
5	Specify how you will manage any data security and privacy incidents that implicate PII and describe any specific plans you have in place to identify breaches and/or unauthorized disclosures, and to meet your obligations to report incidents to the EA.	If the Public Cloud systems or services are compromised Skillssoft Cloud Operations would immediately implement an environment lock-down blocking all inbound and outbound communication from the datacenter environment. Privileged remote connectivity would be maintained for Cloud Operations Security and Network Personnel to ensure the timeliest resolution of the issue. Every effort would be taken to close the breach, re-stabilize the systems and limit exposure of customer data. A detailed post-mortem of the events would be conducted at the earliest opportunity and shared with our customers as appropriate
6	Describe how data will be transitioned to the EA when no longer needed by you to meet your contractual obligations, if applicable.	Upon termination of contract, all customer data can be transferred to the customer in an agreed upon medium and/or securely erased in accordance with Skillssoft's Digital Media Destruction Policy.
7	Describe your secure destruction practices and how certification will be provided to the EA.	Skillssoft uses certified companies to destroy media. The companies are required to issue Certificates of Destruction to Skillssoft. The destruction of media is done with a Skillssoft employee witnessing it, or on Skillssoft premises.
8	Outline how your data security and privacy program/practices align with the EA's applicable policies.	Please refer to our Cloud Ops document: https://documentation.skillssoft.com/en_us/cloud_ops/Cloud_Ops_Services_Percipio_US_AWS.pdf
9	Outline how your data security and privacy program/practices materially align with the NIST CSF v1.1	NIST standards are used for removal of storage devices and Physical destruction. Certificates of destruction are available from Skillssoft, upon request.

Western Suffolk BOCES Education Law §2-d Bill of Rights for Data Privacy and Security

Parents (including legal guardians or persons in parental relationships) and Eligible Students (students 18 years and older) can expect the following:

1. A student's personally identifiable information (PII) cannot be sold or released for any Commercial or Marketing purpose. PII, as defined by Education Law § 2-d and the Family Educational Rights and Privacy Act ("FERPA"), includes direct identifiers such as a student's name or identification number, parent's name, or address; and indirect identifiers such as a student's date of birth, which when linked to or combined with other information can be used to distinguish or trace a student's identity. Please see FERPA's regulations at 34 CFR 99.3 for a more complete definition.
2. The right to inspect and review the complete contents of the student's education record stored or maintained by an educational agency. This right may not apply to Parents of an Eligible Student.
3. State and federal laws such as Education Law § 2-d; the Commissioner of Education's Regulations at 8 NYCRR Part 121, FERPA at 12 U.S.C. 1232g (34 CFR Part 99); Children's Online Privacy Protection Act ("COPPA") at 15 U.S.C. 6501-6502 (16 CFR Part 312); Protection of Pupil Rights Amendment ("PPRA") at 20 U.S.C. 1232h (34 CFR Part 98); and the Individuals with Disabilities Education Act ("IDEA") at 20 U.S.C. 1400 et seq. (34 CFR Part 300); protect the confidentiality of a student's identifiable information.
4. Safeguards associated with industry standards and best practices including, but not limited to, encryption, firewalls and password protection must be in place when student PII is stored or transferred.
5. A complete list of all student data elements collected by NYSED is available at www.nysed.gov/data-privacy-security/student-data-inventory and by writing to: Chief Privacy Officer, New York State Education Department, 89 Washington Avenue, Albany, NY 12234.
6. The right to have complaints about possible breaches and unauthorized disclosures of PII addressed. (i) Complaints should be submitted to: dpo@wsboces.org. (ii) Complaints may also be submitted to the NYS Education Department at www.nysed.gov/data-privacy-security/report-improper-disclosure, by mail to: Chief Privacy Officer, New York State Education Department, 89 Washington Avenue, Albany, NY 12234; by email to privacy@nysed.gov; or by telephone at 518-474-0937.
7. To be notified in accordance with applicable laws and regulations if a breach or unauthorized release of PII occurs.
8. Educational agency workers that handle PII will receive training on applicable state and federal laws, policies, and safeguards associated with industry standards and best practices that protect PII.
9. Educational agency contracts with vendors that receive PII will address statutory and regulatory data privacy and security requirements.
