For every contract, the Contractor must complete the following or provide a plan that materially addresses its requirements, including alignment with the NIST Cybersecurity Framework, which is the standard for educational agency data privacy and security policies in New York state. **While this plan is not required to be posted to the EA's website, contractors should nevertheless ensure that they do not include information that could compromise the security of their data and data systems.**

Have limited internal access to personally identifiable information to only those employees or sub-contractors that need access to provide the contracted services; 4. Have prohibited the use of personally identifiable information for any purpose not explicitly authorized in this contract.

Staff must sign the appropriate confidential agreement before accessing the Enterprise
5	Specify how you will manage any data security and privacy incidents that implicate PII and describe any specific plans you have in place to identify breaches and/or unauthorized disclosures, and to meet your obligations to report incidents to the EA. The Incident Response Plan includes recovery activities and communication protocols to be followed throughout the event.
